Doing What is Right®

Kernaghan Adjusters' 61st Anniversary!

Sixty-one years ago Stan Kernaghan opened our first office in Winnipeg with my mom as his part time secretary. Under his leadership KA became the first national independent adjusting firm in Canada.

We have remained independently owned. We live our core values of *trust, accountability, professionalism and innovation*. Our Senior Management Team leads our operations.

Our 2014 Major Initiatives include:

Workflow Analysis - to generate concrete changes for a better work environment within KA, this will produce even better service for our clients nationally.

Growth - to continue attracting new adjusting expertise for our national team.

Corporate Culture - to effectively communicate the beliefs and shared behaviors that are the foundation of Kernaghan Adjusters' service standards.

We're excited about our fast paced growth and look forward to service our clients as we move forward.

Hi Patti,

Congratulations on your 61st Anniversary.
I'm sure your dad must be proud of how you have taken over the helm of this company.

BTW, I brought the Kernaghan eco bag to Cancun and it was very handy in carrying my snacks and water.

Regards,
